

PERFORMANCE YOU CAN RELY ON

Strength is the foundation:

Like your home, every Crown Canopy is built on a strong foundation. The integrated base rails are fundamental to the design. Equally important are the composite materials and processes that are used to build each fibreglass canopy. This guarantees performance and longevity you can rely on.

What you really need to know:

Weather-tight performance is so important, nothing is left to chance.

Windows are installed using a customised rubber seal with an encapsulated foam core.

The seal forms a water barrier between the window and the canopy shell, to keep your valuables dry.

Be smart, look smart:

Accessories need to be complementary to the overall appearance of your vehicle. All Crown Canopies are designed to match the vehicle lines and style for each and every application.

WINDOW OPTIONS

High quality components complement the design, function & style of each Crown Canopy.

Tempered safety glass is used for all windows, which include fixed, sliding or lift-up side windows.

Better still, choose between our flush mount lift-ups or flush mount scissor lift-ups or flush mount scissor action windows for an all glass look

WE'VE SET THE STANDARD! AS 1235; 2000

Adding roof racks to your Crown Canopy is easy. All our canopies are rated to carry up-to 100kg in accordance with the Australian standard AS 1235; 2000.

So it doesn't matter if it's a ladder, bike or kayak you can load with confidence.

EVERY PIECE COUNTS

Crown has set the Standard

Rated to 100kg in accordance with the AS 1235; 2000 standard. So you can carry your ladder, bike or kayak with confidence.

Secure your load

Protect your gear with key matched rear door handles, using double pozi catch-latches to provide the best security.

Custom Moulded Finishing Cap

Thermo-Plastic-Rubber Seals are designed to assist with water egress and provide an exit for captured water.

Solid integrated base-rail

Any canopy is only as strong as its base. Our one piece fibreglass canopy will provide maximum strength & water tightness for years to come.

Unique water barriers

Our customised rubber seal ensures the weather stays outside so your load stays dry

THE OPTIONS

Optional Internal LED Light

Battery operated LED lights can be attached to the interior of any Crown Canopy rear door and or side windows.

Colour Code Your Canopy

Colour coding is available to match your Crown Canopy to your vehicle.

Optional Roof Rack Mounts

Additional dual layer of fibre reinforced composite greatly increases the thickness and strength for secure loading.

Security Mesh

Available for sliding side windows. Made from mild steel and powder coated.
