ROOF RACK LEG OPTIONS

When choosing the right legs for your racks, there are three main things to consider. The load you plan to carry, the shape of your roof and the adventure you plan to go on.

Quick Mount Leg Set (RTL600)

The Quick Mount RTL600 Leg set uses a simple trigger locking system, making it easy to use.

- Simple trigger locking.
- Lockable cover plate.
- Allows for 33 degrees of rotation.
- Tested to AS1235:2000 standards.
- Suits top, track and canopy mount.

Masterkey™ Compatible

Removable Mount

Clamps inside the door and can be installed simply.

Rail Mount

Attach racks to the vehicle's factory rails.

Gutter Mount

Uses the existing vehicle guttering.

Track Mount

Install vehicle specific tracks for the highest load capacity.

Permanent Mount

Permanently mounts to the roof of the vehicle.

Canopy Mount

Provides extra carrying capacity by mounting to your canopy.

LEISURE ACCESSORIES

Whether you're wanting to carry the families bikes, kayak, surfboard, snowboard or even an awning. Rhino-Rack provides you with everything so you can carry everything else.
